

PARTNERING & COLLABORATION

Thursday, November 1, 2018, 7:30 AM - Noon

Cafeteria Conference Center Rooms 1 & 2, LADWP, 111 N. Hope Street, Los Angeles, CA 90012

Today's construction projects are made even more complex in an environment of sophisticated rules and requirements, amid ongoing scrutiny from the press and public. It is essential for those attempting to deliver a satisfactory project, let alone an award-winning one, to function at the highest level.

Formal partnering in new construction and major remodels offers an opportunity to make projects stress free through a proven methodology that consistently delivers building projects:

- under budget
- ahead of schedule
- with outstanding safety performance
- with greatly increased project participant satisfaction
- given award-winning stakeholder recognition

Formal partnering is a time-tested way to consistently deliver superior projects. Partnering can be implemented at very little expense, and even applied on projects that have gone awry. Studies show that every dollar spent on partnering is repaid with an average of \$100 dollars in savings.

This robust seminar will cover the elements of the Partnering Model, its benefits, and when and how to best use it. You will learn the skills necessary to function as a collaborative, high-performing team that produces excellent results each and every time. Together, we will focus on creating a collaborative team environment, and the critical art of collaborative partnering in a construction environment.

The program begins with an exercise providing a real-world experience in collaboration and consensus-based team decision making. The Partnering "How to" segment follows.

► **Invite or bring your teams/partners and learn ways to create better results together.**

PRESENTERS: **Larry Eisenberg**, Principal, Ovus Partners 360, has an extensive background in construction, working nearly 25 years managing very large public sector building projects, using various project management techniques from low bid to CM at Risk. Larry is a strong advocate of Partnering in the building process. He is currently a Board member of both the **International Partnering Institute (IPI)** and **Western Council of Construction Consumers (WCCC)**. He chairs IPI committees and serves as a judge for IPI National Partnering Awards and WCCC Owners' Project Excellence Awards.

Rick Mayfield, Executive Director, **International Partnering Institute (IPI)**, has 25+ years' experience developing high performing teams while focusing on execution of organizational strategies. Currently, his primary goal is advancing the IPI mission of transforming the construction industry to achieve exceptional results through a culture of collaboration.
