

THINK ABOUT THIS:

Why are there so few really successful people in this world? "Because most people settle for good enough." That's according to Jim Collins, author of the best-selling book **Good to Great**. He calls "Good" the enemy of "Great."

Anything in life worth achieving takes effort and sacrifice. Getting PMP certified is no exception. The fact is certified professionals make up to 30% more money than their un-certified colleagues. We all know that we would make more money and have better lives if we had certifications that proved our abilities. So, why don't we? We have families, children, jobs, and now complications from a pandemic - life takes time. It is 2020. Who has the time or ability to spend three nights a week with the local college or read a book for three hours a night? I know we don't. So how do we get certified and improve our lives while still living them?

The **Project Management Training Academy (PMTA)** Study Group/Workshop process addresses these challenges. PMTA specializes in helping busy people prepare for, and earn, their certification quickly and easily. This convenient, easy-to-use program works with you, utilizing three lunch hours a week.

PMTA gives you the tools you need to make your life better. Choose not to settle for good enough. Get all the knowledge and capability you need to obtain your PMP certification and improve your life. This is one of the very few programs that lives up to the hype: Learn everything. Study when you want. Enjoy studying. Spend less money. We are here for you every step of the way. So, get certified and choose to be great.
