

Founded in 1972, **Western Council of Construction Consumers** serves as a forum for those involved in commercial, institutional and industrial construction, to address those issues common to the design, engineering and construction industry.

Join in ...

Western Council is dedicated to strengthening, serving, and promoting your organization. Public or private Owners, Contractors, Subcontractors, Professional Service Providers, and Vendors all benefit from membership and participation.

When your firm or agency joins, **all** of your employees become members — eligible for **member-only rates** for educational programs, equipping them to provide you with valuable info to assist with in-house training; improved safety, operations and maintenance; and quality, cost-effective construction. Western Council involves your in-house talent in program planning, and listens to your topic needs.

Members may host and/or champion programs, such as Round Tables, as well as serve on planning teams and industry or interest committees.

Only Members may submit for Western Council Owners' Project Excellence Awards, which recognize outstanding performance in design, engineering and construction. Join now to submit your projects substantially completed in 2016

Members get a **Free** link to their website from **www.wccc.org**, and enjoy **discount rates** on ads or advertorials in Council Publications. You may submit White Papers for posting, as well.

Check the Western Council website for other benefits or opportunities and the application. Join or renew now.

Benefit from and share the Western Council Experience!
